SUMMARY STATEMENT

I am a software developer who completed a Software Engineering Diploma program at Centennial College. I am currently seeking a software engineering position where reliability is valued.

SKILLS

- **Languages:** C#, JavaScript, TypeScript, Java, Python, HTML5, CSS
- **Frameworks & Libraries:** ASP.NET Core, .NET Core, React, Spring, Node.js, Express.js, Material UI, Bootstrap.
- **Database:** SQL Server, MySQL, MongoDB
- **Other:** Amazon Web Services, GitHub

FEATURED PROJECTS

Expense Tracker (ASP.NET, C#, Entity Framework Core, SQL, React, Redux, Recharts, JavaScript, Material UI)

August 2022

<https://expense-tracker-shelukheev.herokuapp.com/>

- Developed and hosted a webapp. Backend - .NET (C#). Frontend – React
- Registered users can keep track of their expenses.

Video Sharing Web App (ASP.NET, C#, MSSQL, AWS (S3, IAM, DynamoDB), React, TypeScript, Redux, SignalR)

June-July 2022

<https://sharing-things.herokuapp.com/>

- Developed and hosted a video sharing webapp (YouTube clone). Backend - .NET (C#). Frontend - React
- Users can upload videos, add video to a favorite list, leave comments under each video, subscribe to other users.
- Utilized AWS such as Amazon S3 for video files and DynamoDB.

Task Tracker for Teams (React, JavaScript, Node.js, Express, MongoDB, Auth0, Socket.IO)

Jan. 2022 – April 2022.

<https://komanda.netlify.app/>

- Designed and developed a full-stack MERN web application with a group of developers
- Real-time updates using Socket.IO
- authentication/authorization implemented with Auth0

EDUCATION

Software Engineering Technology, Honours Graduate
Centennial College, Canada

Sept 2020 - April 2022

International Language Academy of Canada (ILAC)

Oct 2019 – June 2020

Bachelor's Degree in Applied Physics and Mathematics, Specialization – Quantum

Sept 2015 - June 2019

Optics and Informatics.

Saint Petersburg State University, St Petersburg
